

Pluto Cycle and Major Conjunctions

Pluto Cycle

Revised times for all cycles and conjunctions in this document are from *Tables of Planetary Phenomena*, 2nd Ed by Neil F. Michelsen rev. by Rique Pottenger

Pluto Cycle 1864

Only those events occurring just before the start of the cycle and signified by an aspect that is within 1° of perfect around the beginning of the cycle should be attributed to the cycle.

Pluto attracts events involving group activity for the sake of a specific purpose which may or may not be beneficial to society: co-operative effort to alleviate suffering, administer justice or gangsters and racketeers, kidnapping and mass murder.

Tends to act through commissions, bureaus, committees. He has little regard for the voice of the people; when working for them he delegates to specialists unlike Neptune who would give every person a voice in the decision making; Pluto is dictatorial, giving power to one or a small group. He is quick to punish subordinates.

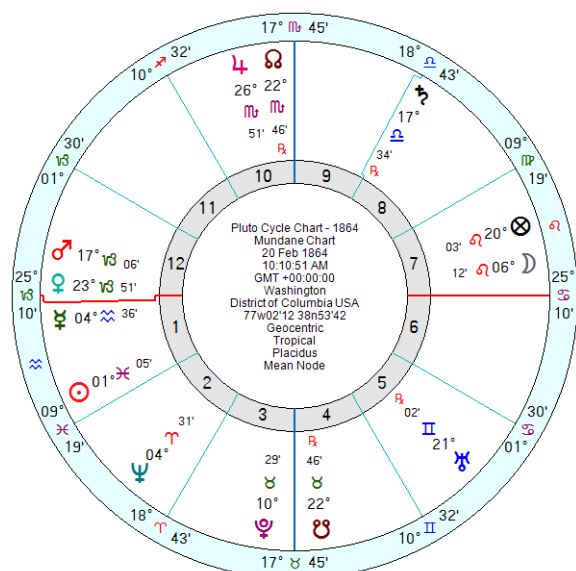

Afflicted, he tends to split a group into two rival factions, even when unafflicted the forming of one group usually invites the forming of a second group intent on thwarting the first.

His worst attribute is *inversion*; the suppression of facts and the distortion of information to create public opinion favourable to one group and its purpose.

Heavy Transits in the Pluto Cycle Chart of 1864

Zain did not have an exact date and time for the cycle chart so his descriptions of the events are based solely on the planet involved; no house references, no Moon transits. House references have been added.

Pluto Cycle and Major Conjunctions

Neptune-Pluto Conjunctions

As ♀ rules groups, co-operation, the splitting into two opposing factions, and the exercise of dictatorial powers; and ♄ rules visionary schemes, involved affairs, involuntary servitude and dramatic art; the conjunction of ♄ and ♀ attracts events in which factors related to both planets are combined.

Conjunction 1891

Zain had this timed to July 22, 1891 at 10:24pm LMT, Washington. The planet positions do not agree with his chart so I've inserted what I believe to be the indications in the current chart.

On March 14, eleven Italians were lynched (♀) in New Orleans. This crime [♀ rules the 12th and is square ♄ ♂ ♀] resulted in the recall by Italy [♂ ruler of the 7th of foreign countries sextile ♄ ♂ ♀, ♂ is in the 4th (home) from the 7th] of her minister at Washington, and a demand for reparations [♄ ♂ ♀ in the 8th of debts].

The controversy continued throughout the summer, and not until April 12, 1892 was the matter finally settled by the payment of cash to

Italy by the US State Department.

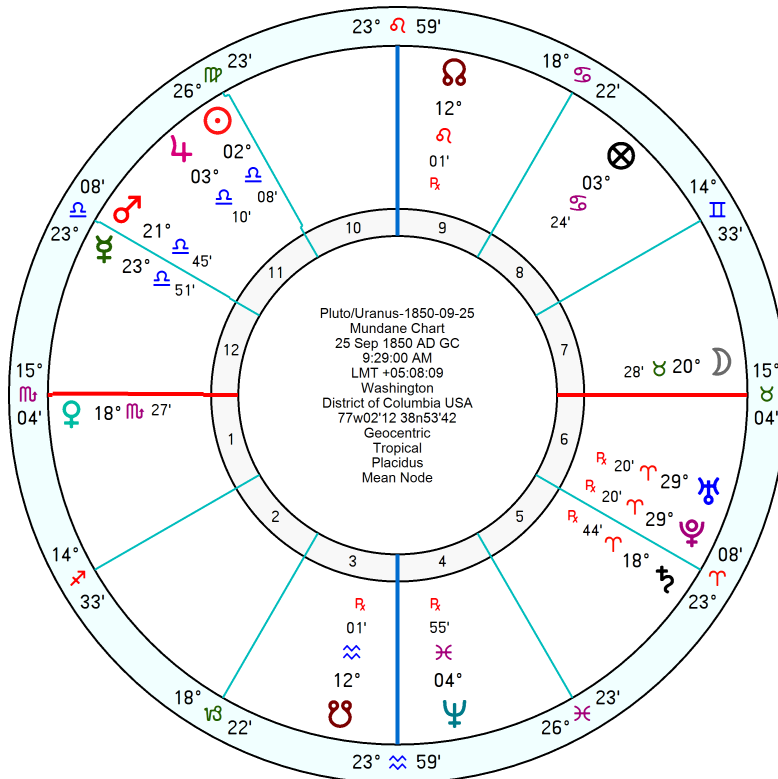

Note: There were three conjunctions over the period: August 2, 1891 (above), November 5, 1891 and the last on April 30, 1892 (just after the matter was finally settled). The March 14 date is not as far wide of the conjunction as it appears as ♄ and ♀ were within 1° 46' of each other at the time.

Pluto Cycle and Major Conjunctions

Uranus-Pluto Conjunctions

As ♀ rules groups, co-operation, the splitting into two opposing factions, and the exercise of dictatorial powers; and ♂ rules independence, reform, exposure, invention and the new and untried; the conjunction of ♂ with ♀ attracts events in which factors related to both planets are combined.

Conjunction 1850

Zain links the passing, on September 18, 1850, of a “new (♂) and drastic (♀) Anti-Slave Law intended to check organized (♀) assistance to fugitives” to this chart but he has the date and time down as June 20, 1850 6:52 am with the conjunction in the 10th (business).

The placements in this chart are very different, however, on September 25th, both planets were retrograde and repeated the conjunction in the 6th (slaves/employees) with ♂, ruler of the 6th, in the 11th of the administration inconjunct the ☽, ruler of the 9th (law) and within 2° of the 12th (confinement) while ♀, ruler of the 12th, in the 1st (people) within 2° of an opposition to the ☽, ruler of the 9th (law), in the 7th (conflict).

Times for other Uranus-Pluto conjunctions:

March 23, 1851 21:02 ET 28 ♀ 43
October 9, 1865 20:11 ET 17 ♀ 10
April 4, 1966 20:44 ET 16 ♀ 28
June 30, 1966 9:49 16 ♀ 06

None occur again until after 2100.
